The fascination of Audi 64

Technical data 66

The fuel consumption and CO₂ emission figures can be found from page 66 onwards.

Progressives Design –
clear surfaces, sharp lines, distinctive style.

The powerful-looking front end, the three-dimensional Singleframe and the sporty, elegant design.
The Audi A4 Sedan: exciting, inspiring, captivating.

Dynamic, precise, succinct. From the front end to the distinctive diffuser with integrated tailpipes. Rounded off by optional LED rear lights with dynamic indicators in a progressive design.

A sedan with a new language of form. Emphatically sporty. Strikingly staged. By the straight roof line and the crisp, all-round shoulder line with gently tapering shadow edge.

The fuel consumption and CO₂ emission figures can be found from page 66 onwards.

L i g h t s o n .

The fuel consumption and CO₂ emission figures can be found from page 66 onwards.

Night off.

The fuel consumption and CO₂ emission figures can be found from page 66 onwards.

**Audi Matrix LED headlights –
see and be seen.**

A shining example of progressiveness: the crystal-like light from the optional Matrix LED headlights casts a bright, uniform light across the road.

The fuel consumption and CO₂ emission figures can be found from page 66 onwards.

R o a r i n g e n g i n e .

The fuel consumption and CO₂ emission figures can be found from page 66 onwards.

Beating heart.

The fuel consumption and CO₂ emission figures can be found from page 66 onwards.

**State-of-the-art driver assistance systems –
arrive more relaxed and save fuel.**

More comfort, greater safety and reduced fuel consumption. Assured by an intelligent combination of newly developed assistance systems. As an option, the predictive efficiency assistant helps you to adopt an anticipatory driving style for fuel savings of up to 10%. adaptive cruise control with Stop&Go function including congestion assistant will make driving easier in slow-moving traffic, and at speeds of up to 65 km/h will even help to steer the car. The next step towards piloted driving.

The fuel consumption and CO₂ emission figures can be found from page 66 onwards.

quattro –
enhanced dynamics, traction and safety.

Agility in everyday driving and beyond. Stick to the road. Wherever and whenever you want. Made possible thanks to the optional quattro all-wheel drive system. More traction in virtually every situation. Exhilarating dynamics. Thrilling handling characteristics that you won't want to lose. For the Audi A4, quattro is also offered as permanently available all-wheel drive: quattro with ultra technology. Power at all four wheels, whenever it's needed. Just as self-assured, even more efficient.

The fuel consumption and CO₂ emission figures can be found from page 66 onwards.

Virtual cockpit.

The fuel consumption and CO₂ emission figures can be found from page 66 onwards.

Real experience.

The future of mobility clearly in focus. With the optional Audi virtual cockpit. Fully digital instrument cluster with high-resolution 12.3-inch colour display. A high level of function and design. Plus, on request, the head-up display¹, which also projects information in the driver's direct field of vision. Experience infotainment on a grand scale. Right here in your Audi A4.

The fuel consumption and CO₂ emission figures can be found from page 66 onwards.

¹ Polarising sunglasses will restrict the use of the head-up display.

**MMI and
Audi smartphone interface¹ –**
your personal data environment integrated
and intuitively controlled.

Everything under control. Driver-oriented and tailored to you. The familiar world of your smartphone with optional Audi smartphone interface¹. Presented on the high-resolution MMI display. And for even more entertainment, convenience and safety, there are the innovative Audi connect services² as an option. Up-to-date data delivered at top speed thanks to the LTE³ mobile communication standard. Including permanently installed SIM card² and Wi-Fi hotspot². Find out for yourself.

¹ Legal information about the Audi smartphone interface can be found on page 71.

² Legal information and notes on use can be found on page 71.

³ Requires LTE card contract for full use. For information about the availability and use of LTE support, please contact your Audi partner.

3 D sound.

BANG & OLUFSEN

Live sound.

Almost like in a concert hall. The optional Bang & Olufsen 3D Sound System raises musical enjoyment to a new level. Assured by an amplifier output of 755 watts and 19 loudspeakers. Midrange speakers and tweeters specially integrated into the A-pillar create a three-dimensional sound that reproduces the full depth of the music. And with a precision that will give you a fascinating in-car experience.

The fuel consumption and CO₂ emission figures can be found from page 66 onwards.

The image shows the driver's perspective of the Audi A4 Sedan's interior. The dashboard is a wide, horizontal strip with a dark wood trim. The instrument cluster is a large, curved digital display showing a navigation map and various vehicle metrics. The steering wheel is black with the Audi logo in the center and has multiple control buttons. The center console features a large touchscreen display showing a menu with options like 'Medien', 'Telefon', 'Navigation', 'Karte', 'Audi connect', and 'Externer Audioplayer'. Below the screen are air vents and a climate control panel with a digital display showing '21.0'. The seats are upholstered in a rich brown leather. The overall design is clean, modern, and functional.

**Interior design –
innovative architecture, sophisticated ambience,
impressive quality.**

High tech, functionality and design. Impressively and harmoniously combined in the interior. Horizontal interior architecture. Exuding lightness and breadth. High-quality materials, sophisticated tactile qualities and precision workmanship. Plus headroom, shoulder room and legroom that ensure a wonderful sense of space. The optional contour/ambient lighting package with its range of selectable colours creates an atmosphere of well-being.

The fuel consumption and CO₂ emission figures can be found from page 66 onwards.

Functional interior –
comfortable equipment,
generously spacious.

The Audi A4:
Progress is intense.

The fuel consumption and CO₂ emission figures can be found from page 66 onwards.

More
than just a kick.

Quintessential sportiness

Sharpened design, increased power. Dynamism and a driving experience that's on a par with a sports car. Plus quattro all-wheel drive as standard. Along with scintillating performance and the thrill of anticipation. Sporting the hallmark S: the Audi S4.

The fuel consumption and CO₂ emission figures can be found on page 68.

Unique
time and again.

Dynamics

brought to life.

Sporty looks as standard. Emphasised with exterior mirror housings in aluminium look. Optional cast aluminium wheels in 5-spoke V design (S design), contrasting grey, partly polished¹, and red painted brake callipers. Combined with rear honeycomb grid with black grain effect and S diffuser in twilight grey, matt. The S-specific dual-branch exhaust system in chrome, the illuminated door sill trims and the pronounced rear spoiler on the Sedan round off the athletic look in impressive style.

The fuel consumption and CO₂ emission figures can be found on page 68.

¹ Please note the special information relating to wheels on page 70.

Everything under control.

Get in, take a seat, buckle up. Perhaps on the optional S sport seats, front with S embossing. Excellent lateral support even for dynamic driving. Drivers always have the information they need in clear view. Optionally with the high-resolution Audi virtual cockpit that features a 12.3-inch colour display in S-specific design. And select sport mode to put the rev counter centre stage. The key to a fascinating sports car atmosphere.

The fuel consumption and CO₂ emission figures can be found on page 68.

Exhilaration

from the word go.

Be inspired by extraordinarily sporty design. Experience the thrill of sports-car-like performance and be enthralled by technical innovations. Or in short: experience the Audi S4.

More exceptional. With A4 design and Audi design selection.

In an Audi A4, there is plenty of scope for your own ideas. The A4 design line allows you to create striking accents which reflect your personality. Make an exceptional vehicle even more exceptional. This can be stylishly achieved with the Audi design selection which offers an attractive range of special materials and colours for the interior. Our designers have combined selected inlays with exquisite leather seats featuring attractive contrasting stitching.

The fuel consumption and CO₂ emission figures can be found from page 66 onwards.

Some of the equipment shown or described is optional equipment for which an extra charge is made. Detailed information on standard and optional equipment is available at www.audi.co.za or from your Audi partner.

¹Please note the special information relating to wheels on page 72.

Audi A4 Sedan 2.0 TFSI ultra (140 kW from 109 g and 114 g CO₂/km)

The A4 2.0 TFSI ultra model is available with all equipment without any restrictions.

Audi A4 Sedan 2.0 TDI ultra (110 kW from 95 g CO₂/km and 140 kW from 99 g CO₂/km with manual transmission, and from 99 g CO₂/km and 101 g with automatic transmission).

These vehicles represent extra efficiency Audi models in which the balance between power and consumption has been further improved. These Audi models are characterised by reduced consumption and CO₂ emissions when compared with the standard model. This effect has been achieved by modifications to the vehicle.

The A4 Sedan2.0 TDI ultra models (110 kW and 140 kW) are fitted with the following as standard:

- 6-speed manual transmission with improved transmission ratio (also available with 7-speed S tronic automatic transmission)
- driver information system with gear change and efficiency displays; provides gear-changing and fuel-saving tips to help the driver adopt a fuel-efficient driving style
- swivelling radiator grille to optimise heat-up behaviour and aerodynamics
- tyres with improved rolling resistance to allow fuel to be saved
- improved ride height (thanks to sport suspension) and various vehicle components for low drag coefficient

The A4 Sedan 2.0 TDI ultra (110 kW and 140 kW) come as standard with forged lightweight wheels with full wheel cover, size 7 J × 16 with 205/60 R 16 tyres¹⁵ as standard, optional for A4 Sedan 2.0 TDI ultra 110 kW with 195/65 R 16 tyres¹⁵ (not low rolling-resistance tyres)

The following wheels are also optionally available:

- forged aluminium wheels in 10-spoke design, size 7.5 J × 17 with 225/50 R 17 tyres¹⁵
- cast aluminium wheels in 5-arm star design, size 7.5 J × 17 with 225/50 R 17 tyres¹⁵
- cast aluminium wheels in 5-parallel-spoke design, size 7.5 J × 17 with 225/50 R 17 tyres¹⁵
- cast aluminium wheels in 5-arm aero design, contrasting grey, partly polished¹⁶, size 7.5 J × 17 with 225/50 R 17 tyres¹⁵
- cast aluminium wheels in 5-spoke Y design, size 7.5 J × 17 with 225/50 R 17 tyres¹⁵
- cast aluminium wheels in 10-spoke crystal design, size 7.5 J × 17 with 225/50 R 17 tyres¹⁵
- forged aluminium wheels in 10-spoke design, size 7.5 J × 17 with 225/50 R 17 tyres¹⁵
- 18-inch wheels

The following equipment is not available for the A4 Sedan 2.0 TDI ultra (110 kW, 140 kW):

- comfort suspension with damper control
- auxiliary heating

[] Figures in square brackets refer to the S tronic/tiptronic automatic transmissions. Explanation of ¹ to ¹⁶ on page 70.

Explanatory notes

¹ Refill the separate AdBlue tank as indicated by the information in the display of the instrument cluster. We recommend having the AdBlue tank refilled by your Audi partner. AdBlue is a registered trademark of the Verband der Automobilindustrie e. V. (VDA).

² The figure given was calculated using the specified measuring procedure (current version of UN-R 85).

³ Unladen vehicle weight includes driver (75 kg) and fuel tank 90 % full, calculated in accordance with the current version of Regulation (EU) 1230/2012. Optional equipment may increase the car’s unladen weight and drag coefficient, whereupon the possible payload limit and the top speed will be reduced accordingly.

⁴ The engine’s power output always decreases with increasing altitude. At 1,000 m above sea level, and for every additional 1,000 m, deduct 10 % from the weight of the outfit (trailer load limit + gross weight of the towing vehicle). Figure for trailer load limit applies to factory-fitted trailer towing hitch. If using the vehicle with a trailer towing hitch for commercial purposes, a digital tachograph may be required under certain conditions.

⁵ Optionally available.

⁶ Fuel consumption and CO₂ emission figures given in ranges depend on the tyre/wheel sets used.

⁷ Electronically regulated.

⁸ We recommend using sulphur-free super unleaded RON 95 fuel complying with DIN EN 228. If this is not available, use sulphur-free regular unleaded RON 91 fuel complying with DIN EN 228; power output will be slightly reduced. Unleaded RON 95 fuel with a maximum ethanol content of 10 % (E10) can generally be used. Fuel consumption details refer to operation with RON 95 fuel complying with 692/2008/EC.

⁹ We recommend using sulphur-free diesel complying with DIN EN 590. If this is not available, use diesel complying with DIN EN 590.

¹⁰ The figures given were calculated using the specified measuring procedures. The figures do not refer to one individual vehicle and do not form part of any offer, but rather should be used purely for purposes of comparison between the different vehicle models.

¹¹ A vehicle’s fuel consumption and CO₂ emissions do not just depend on how efficiently the vehicle uses the fuel, but are also influenced by driving behaviour and other non-technical factors. CO₂ is the greenhouse gas primarily responsible for global warming.

¹² In conjunction with low rolling-resistance tyres.

¹³ In conjunction with low rolling-resistance tyres, the maximum permissible speed is 210 km/h.

¹⁴ In conjunction with low rolling-resistance tyres and a maximum permissible speed of 210 km/h.

¹⁵ You will find specifications on the technical characteristics of tyres in the adjacent table.

¹⁶ Please note the special information relating to wheels on this page.

Classifications of tyre parameters

The table shows the range of fuel efficiency, wet grip and exterior noise emission classes for the different tyre sizes of the Audi A4 Sedan and the Audi S4 Sedan.

	Tyre size	Fuel efficiency class	Wet grip class	Exterior noise emission class
Summer tyres	205/60 R 16	C–B	B–A	72–70
	225/50 R 17	C–B	B–A	72–69 –
	225/55 R 17	C	A	70

	225/50 R 17	B	C	69

It is not possible to order a specific tyre.

Ask your Audi partner about the range of tyres available in your country.

Important note

Special information about the wheels: Wheels with gloss turned or gloss milled finish as well as polished or partly polished aluminium wheels must not be used in wintry road conditions. For manufacturing reasons, the rim surface does not have sufficient corrosion protection for such use and can be permanently damaged by road salt or similar.

Legal notice about Audi connect Navigation & Infotainment with customer’s own SIM card

Use of the services supported by Audi connect is possible only with an optional navigation system and Audi connect (including car phone – depending on the vehicle model). Depending on the vehicle model, you will also require a SIM card with data option and with LTE option to use LTE¹ – with car phone, a SIM card with telephone and data option or a Bluetooth-capable smartphone with remote SIM Access Profile (rSAP)². The services are available only with an existing or separate mobile phone contract and only within the range of the respective mobile phone network. Additional costs may be incurred when receiving data packets from the internet, depending on the terms of your mobile phone contract, particularly when used abroad. Because of the high data volumes involved, a data flat rate is strongly recommended.

The availability of the services supported by Audi Navigation & Infotainment varies from country to country. Audi connect services are provided for at least 1 year from vehicle delivery. Following a period of 24 months after vehicle delivery, Audi connect services are extended once free of charge for 12 months. If you do not require this extension, please write to:

AUDI AG
Audi International Customer Care Services
85045 Ingolstadt, Germany
Email: kundenbetreuung@audi.de
Tel.: +49 (0) 800-2834 7378423

Ask your Audi partner about a subsequent extension of the Audi connect services. Depending on the vehicle model, Audi connect provides access to Google and Twitter services. Permanent availability cannot be guaranteed as this is the responsibility of Google and Twitter. Please visit www.audi.co.za/connect or contact your Audi partner for more detailed information about Audi connect; contact your mobile services provider for information about contract conditions.

Legal notice about Audi connect Navigation & Infotainment via a SIM card permanently installed in the vehicle

Use of the services supported by Audi connect is possible only with an optional navigation system. Audi connect services are provided through AUDI AG/importers. The data connection for Audi connect services is set up through a mobile services provider via a SIM card permanently installed in the vehicle. The costs for these data connections are included in the price of Audi connect services. The costs of the Wi-Fi hotspot are not included. The data connection for the Wi-Fi hotspot can be arranged with a selected mobile services provider as a payable data tariff. You will find information about tariffs and booking at www.audi.co.za/myaudi.

Alternatively, a customer’s own SIM card can be inserted into the card slot to establish a data connection. In conjunction with the optional Audi phone box, a Bluetooth-capable smartphone with remote SIM Access Profile (rSAP)² can be connected to use the integrated car phone function. If an external SIM card is inserted into the card slot or connected via rSAP, all data connections, for both the Audi connect services as well as for the Wi-Fi hotspot, will be established via this external SIM card. In such cases, the costs incurred are attached to those accrued via the external SIM card.

The availability of the services supported by Audi connect Navigation & Infotainment varies from country to country. Audi connect services are provided for at least 1 year from vehicle delivery.³ Following a period of 24 months after vehicle delivery, Audi connect services are extended once free of charge for 12 months. If you do not require this free extension, please write to:

AUDI AG
Audi International Customer Care Services
85045 Ingolstadt, Germany
Email: kundenbetreuung@audi.de
Tel.: +49 (0) 800-2834 7378423

Ask your Audi partner about a subsequent extension of the Audi connect services. Depending on the vehicle model, Audi connect provides access to Google and Twitter services. Permanent availability cannot be guaranteed as this is the responsibility of Google and Twitter. Please visit www.audi.co.za/connect or contact your Audi partner for more detailed information about Audi connect; contact your mobile services provider for information about contract conditions.

Legal notice about Audi connect emergency call & service including security & convenience

The services are provided via a SIM card installed in the vehicle. The costs for calls and data connections are included in the price of the services. The services provided by Audi are available only within the coverage of the mobile phone network of the mobile phone provider chosen by Audi. The Audi connect services emergency call, online roadside assistance, Audi incident assistance and Audi service request are provided for 10 years from vehicle delivery in the following countries:

Austria, Belgium, Bulgaria, Finland, France, Germany, Gibraltar, Greece, Hungary, Ireland, Italy, Liechtenstein, Lithuania, Luxembourg, Malta, Monaco, the Netherlands, Norway, Poland, Portugal, Romania, Spain, Sweden, Switzerland, the UK.

Ask your Audi partner about when the services will become available in additional European countries and about the availability of the optional equipment.

The Audi connect security & convenience services can be used free of charge for 3 years from vehicle delivery and can then be extended at an extra charge.

Further information:
Disruption to the services may occur due to force majeure and official orders as well as technical or other measures carried out on the systems of AUDI AG, suppliers or network operators to ensure their proper function (e. g. maintenance, repairs, system-related software updates, extensions). AUDI AG will make every reasonable effort to end such disruption as quickly as possible or to work towards a resolution.

Legal notice about the Audi smartphone interface

Please contact your Audi partner for information on compatible mobile phones. For information on availability in different countries, please contact your Audi partner. Audi has no influence over which applications are displayed via the Audi smartphone interface. The respective service providers are responsible for the content and functions displayed within the applications.

¹ Requires LTE card contract for full use. For information about the availability and use of LTE support, please contact your Audi partner. ²Please contact your Audi partner or visit www.audi.co.za/bluetooth for information on compatible mobile phones. ³The teaser phase offered by AUDI AG with the equipment “Audi connect Navigation & Infotainment with integrated SIM card (3 months)” is available for 3 months from the initial registration and ends automatically once the 3 months have expired. When purchasing the licence for Audi connect Navigation & Infotainment these 3 months are not deducted from the total period of the Audi connect services.

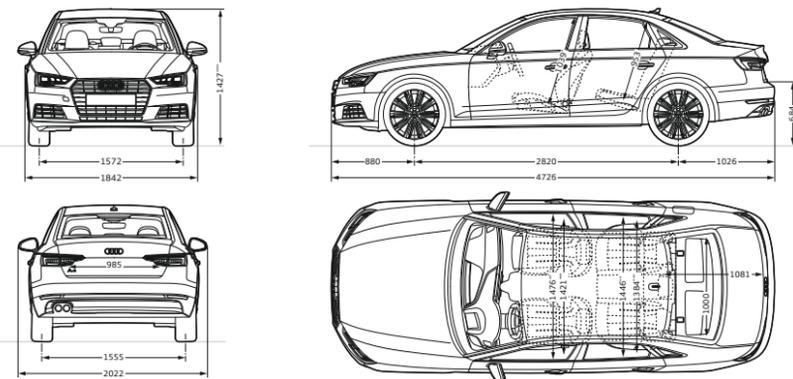

Audi A4 Sedan
