Essentially unmistakeable: a lot will change with the Audi Q2. It’s smart, customised, confident and impossible to categorise. It is #untaggable.

Because your own ideas show the way, whether in town or off the beaten track, in everyday life or off the clock. The vehicle concept for this newcomer comprises numerous innovative technologies and an impressive style.

Accompany the ambitious Q2 through Scandinavia on a journey that is as unconventional as the vehicle itself.

Follow the Audi Q2 through #untaggable.
The Audi Q2 road trip through northern Europe is a journey of discovery, search for exceptional encounters. In places that allow us to take a new perspective and override what is familiar. Places that are perfect for a vehicle that doesn’t need buzz words to be impressive.

The figures for fuel consumption and CO₂ emissions can be found from page 54 onwards.
The Rålis Skatepark in Stockholm – a place that actually wasn’t a place at all. Not until locals decided to give the unused area under a road bridge a purpose and turned it into an urban dream for skaters.

#newcomerlegend

You don’t need a second look to see that the Audi Q2 as a real Audi – and yet it’s hard to keep your eyes off it. Its look is powerful, dynamic and radiates presence. The polygonal vehicle shoulders accentuate the large wheel arches, together crafting a clear statement: quattro. No matter what path the Q2 takes – it’s going its own way.

The figures for fuel consumption and CO₂ emissions can be found from page 54 onwards.

¹ Optionally available.
Why be restricted by other people’s expectations when you can design things yourself? In Superkilen in Copenhagen the answer to this question has allowed a district to emerge that channels a whole range of different cultural influences into a creative collage of architecture and landscape gardening.

No matter how you look at it, the Audi Q2 is a space unto itself. A brand-new line design, created especially for the Q2, culminates in corners and edges at a streamlined rear end. The body has become more athletic.

Follow your own line and take the path less travelled.

The figures for fuel consumption and CO₂ emissions can be found from page 54 onwards.
Confidence is necessary to challenge the establishment.

The Audi Q2 has this confidence in its very look. With its octagonal Singleframe, it is opening a new chapter in Audi design that lends the front and its distinctive appearance. The optional LED headlights are also in step with the polygonal design. In addition, features from the Audi exclusive titanium black styling package¹ and the quantum grey paint finish are causing quite a stir as part of the optional Audi Q2 Edition #1. A stylish supplement to the S line exterior in contrasting colour and to the Audi Sport 19-inch cast aluminium wheels in 5-arm rotor design in anthracite black.¹, ² Together, they concentrate shape and colour into fascinating expression that is impossible to ignore.

¹ From Audi Sport GmbH. ² Please note the special information relating to wheels on page 57.

The figures for fuel consumption and CO₂ emissions can be found from page 54 onwards.
The figures for fuel consumption and CO₂ emissions can be found from page 54 onwards.

With the blade of the C-pillar, for example, available as optional equipment and in matching or contrasting colours, which emphasises the coupé character of the Audi Q2. Or with the optional decorative film Audi rings for the C-pillar. In the Audi Q2 Edition #1 the blades on the C-pillars are in brilliant black and depending on the equipment line selected, are also available in ibis white, ice silver, metallic, titanium grey, matt, or Manhattan grey, metallic.

¹ Available through Audi Genuine Accessories.
New possibilities will open up.
The optional electric luggage compartment lid, for example, permits comfortable and effortless opening and closing, and the divided rear seat bench flexibly enlarges the luggage space in the Audi Q2.

The figures for fuel consumption and CO₂ emissions can be found from page 54 onwards.
You might be forgiven for thinking that power stations don’t tend to have any aesthetic ambitions. However, people in Stockholm think differently. The very stylish green walls were made using a special pressing procedure in order to achieve a three-dimensional effect. Because there is already enough one-dimensionality around.

The figures for fuel consumption and CO₂ emissions can be found from page 54 onwards.
It’s difficult to imagine the future. But the Audi Q2 will show you precisely what counts in modern mobility.

More driving comfort through Audi connect\(^1\), for example, with pioneering services and functions that make driving more connected and more intelligent – such as Twitter or current weather information.

Thanks to the optional Wi-Fi hotspot and SIM card permanently installed in the vehicle, you can continue to use your mobile devices as usual. And you will enjoy every trip even more with the versatile range of infotainment features as well as the Bang & Olufsen Sound System\(^2\).

\(^{1}\) Legal information and notes on use can be found on page 57. \(^{2}\) Optionally available.
Don’t concentrate on what others say, concentrate on what’s important.

The optional Audi virtual cockpit can help you here – intuitively and fully digitally. You get all the information you need where you need it, always at eye level.

The same goes for the head-up display, available on request, which displays the most important information and notifications directly in the driver’s field of vision.

The 3D map representation for the optional MMI navigation plus with MMI touch also ensures a comprehensive overview on an 8.3-inch colour display. In addition, many of your favourite apps are only a click away thanks to the optional Audi smartphone interface.

While others are still trying to classify the Audi Q2, you already know where you’re going.

¹ Polarising sunglasses will restrict the use of the head-up display. ² Please contact your Audi partner for information on compatible mobile phones. ³ For information on availability in certain countries, please contact your Audi partner. ⁴ Audi has no influence on the applications shown via the Audi smartphone interface. The respective providers are responsible for the content and functions displayed within the applications.
A vehicle that refuses to be defined and yet allows you to define every last detail. The interior of the Audi Q2 thrives on individual ideas. The optional equipment lines and packages offer numerous customisation possibilities. Choose from different types of leather and colours to make the interior profile even more exclusive.

For example, go for the sport seats with leather design and colour-contrasting accentuated stripes. Because an independent character has many facets.

The figures for fuel consumption and CO₂ emissions can be found from page 54 onwards.
The Audi Q2 makes the most of what an interior can do. The inlays are optionally available in different variants, such as anodised paint finish in orange, red, yellow or white, which elegantly complement the outer paint finish. In matt brushed aluminium, the inlays give the interior a particularly sporty character. The innovative format light graphics with the Ambiente lighting package are one of the Audi Q2’s real highlights. Take the impressive illuminated applications that set the scene in the dashboard and centre console in different day and night designs. The interior of the Audi Q2 has a unique shine thanks to LED technology.

The figures for fuel consumption and CO₂ emissions can be found from page 54 onwards.
Even if the Audi Q2 leaves plenty of room for interpretation, the driving feel is extremely precise. The progressive steering gives the vehicle more agility and reduces steering effort round tight bends and during parking. The optional quattro permanent all-wheel drive makes driving even more controlled. Variable distributing drive force to the axles improves traction, which in turn ensures more safety and sportiness.

Whichever direction you take, you’ll experience complete independence.

The figures for fuel consumption and CO₂ emissions can be found from page 54 onwards.
Drive through the industrial estate in Rågsved and you’ll hardly ever want to blink. Because probably the most exciting gallery area in Sweden has been created here with the help of Sweden’s best graffiti artists.

Anyone who rides in an Audi Q2 will experience how exciting driving dynamics can be. This is thanks in particular to the optional suspension with damper control and Audi drive select, which adapts the vehicle’s character to your personal preferences – thus making either a more intensive or more efficient driving style possible.

Because #untaggable means always having the choice.

The figures for fuel consumption and CO₂ emissions can be found from page 54 onwards.
The Audi Q2 expresses the passion of being on the road. Because with every journey we take, we tend to free ourselves from old patterns. With the Q2, a vehicle takes to the stage that combines the classic Audi strengths with new and exciting ideas – both in design and technology. You can give the Q2 many names, but all that really counts is what you feel when driving it.

#farnear
In an Audi Q2, there’s plenty of room for your ideas to unfold. With the equipment line Q2 design, for example, the striking highlights of which reflect your personality and make an exceptional vehicle even more exceptional. This is stylishly achieved with a large selection of individual rim designs that underline the vehicle’s elegant and sophisticated appearance. The contrasting paint finish gives the Q2 a distinctly individual character.

And you can satisfy your own high design requirements with the Audi design selection.

The figures for fuel consumption and CO₂ emissions can be found from page 54 onwards.

Some of the equipment illustrated or described is optional equipment for which an extra charge is made. Please contact your Audi partner or visit www.audi.co.za for detailed information about standard and optional equipment.

#contrastharmony

1. Leather steering wheel in 3-spoke design with multifunction plus and matt brushed aluminium inlays
2. Sport seat, front, including seat height adjustment in fine Nappa leather, granite grey with accentuated stripes and contrasting stitching in amaretto brown
3. Leather package with contrasting stitching in amaretto brown
The Q2 sport equipment version lives up to its name all along the line. With details that impressively underline the temperament of the Audi Q2 and promise a powerful performance at the very first glance. The full paint finish available in lots of exciting colours makes the vehicle seem close to the road. The blade in classic ice silver, metallic, is another visual highlight. The S line sport package further sharpens the vehicle’s sporty character.

The figures for fuel consumption and CO₂ emissions can be found from page 54 onwards.

Some of the equipment illustrated or described is optional equipment for which an extra charge is made. Please contact your Audi partner or visit www.audi.co.za for detailed information about standard and optional equipment.
Audi Q2
S line exterior package

#sportchic

Don’t just emphasise the sport character of the Audi Q2 – enhance it.

The S line exterior package further accentuates the Audi Q2’s dynamic body line and uses exciting details to create special highlights.

The figures for fuel consumption and CO₂ emissions can be found from page 54 onwards.

Some of the equipment illustrated or described is optional equipment for which an extra charge is made. Please contact your Audi partner or visit www.audi.co.za for detailed information about standard and optional equipment.

1. Radiator grille in platinum grey, matt, front bumper and side sill trims in a striking sport design as well as S line emblem on the front wings

2. Rear bumper as well as diffuser insert painted in platinum grey, chrome-plated trims for exhaust tailpipes (single or twin depending on engine version)

3. Illuminated door sill trims with aluminium inlays and S emblem

4. Side sill trims in a striking sporty design
#multicustomised

Always go your own way. An attitude expressed through Audi Genuine Accessories.

This double page presents a-selection of attachments and decorative films for the exterior as well as decorative trims for the interior. Whether in the city or on the country - the striking details underline the character of the Audi Q2 and accentuate its striking body line. Available as optional equipment from the factory or for retrofitting from your Audi partner.

The figures for fuel consumption and CO₂ emissions can be found from page 54 onwards.

1. Design films for many areas of the bodywork are available as an option (illustration shows quattro side sills film set in platinum grey, matt). ² Please note the special information relating to wheels on page 57.

Some of the equipment illustrated or described is optional equipment for which an extra charge is made. Please contact your Audi partner or visit www.audi.co.za for detailed information about standard and optional equipment.

1. Offroad style package plus¹ (for details see #2 on the right)

The offroad style package plus includes platinum grey blades for the C-pillar and decorative trim exterior mirror housings with selenite silver inlays; trim strips for the radiator grille in selenite silver; door cover strips (illustration shows offroad style package plus). The offroad style package plus⁴ also includes 18-inch cast aluminium wheels in 5-arm latus design (illustration shows offroad style package plus).

2. Offroad style package with front and rear apron, side step strips, wheel arch trims (each in platinum grey, matt); decorative film Audi rings for the C-pillar, exterior and interior motor cover in selenite silver. The offroad style package also includes decorative trims for the radiator grille in selenite silver; decorative film for the underbody protection; decorative film for the underbody protection. The offroad style package includes offroad style film for the engine bonnet and decorative film for the underbody protection. The offroad style package includes decorative film for the front and rear aprons, door cover strips, wheel arch trims (each in platinum grey, matt), roof edge spoiler; and decorative film for the underbody protection. The offroad style package includes decorative film for the front and rear aprons, door cover strips, wheel arch trims (each in platinum grey, matt), roof edge spoiler; and decorative film for the underbody protection.
