## Engines

| Engine | Capacity | Fuel type | Transmission | Power output (kW) | Torque (Nm) | Fuel consumption (l/100 km) | | | $CO_2$ emissions (g/km) | 0 – 100 km/h (sec) | Top speed (km/h) | RRP* |
|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | | | | | | Urban | Extra urban | Combined | | | | |
| RS Q3 Sportback | 2480 | Petrol | S tronic | 294 | 480 | 11.9 | 7.5 | 9.1 | 213 | 4.5 | 250 | R 1,128,000 |

Fuel consumption and $CO_2$ data applies to the German Market. The specified values are determined in accordance with certain test procedures. The specifications do not refer to an individual vehicle but serve only as a basis for comparing the different types of vehicles. In addition, the consumption figures achieved during normal driving may differ from the test values, depending in particular on special equipment fitted, vehicle loading, personal driving style, road and traffic conditions, environmental factors and conditions of the car.

* RRP is inclusive of VAT and $CO_2$ emissions tax

# RS Q3 Sportback

## Optional extras | RS Q3 Sportback

| Infotainment and assistance systems: | | RS Q3 Sportback |
|---|---|---|
| 9ZE | **Audi phone box** | R5,670 |
| GB1 | **LTE support for Audi phone box (9ZE)** | - |
| PCG | **Adaptive cruise control**<br>Maintains speed and distance to the vehicle in front; Audi pre sense warns when critical driving situations are detected and reduces the risk of collision. With the help of a radar sensor, it detects vehicles driving ahead within the system limits and keeps the speed and distance within the control range largely constant. The control range is 0 to 200 km / h. In stop & go traffic, vehicles can brake to a standstill and, under certain conditions, start again automatically. Operation is via a separate steering column stalk. The distance can be set in five stages, the dynamics of the system can be regulated via Audi drive select or the ACC menu. | R 13,300 |
| 7Y5 | **Lane departure warning with lane change assist**<br>Lane departure warning helps, within the system limits, to avoid unintentionally leaving the lane. If the system is activated and ready and the driver has not set the indicator, the lane departure warning helps to avoid driving over recognized lane delimitation lines through corrective steering interventions. Lane change warning<br>uses two radar sensors to measure the distance and speed difference between vehicles approaching from behind. The system warns the driver of a possible danger when changing lanes through a display on the respective exterior mirror. If the driver activates the indicator to change lanes, he is additionally warned by the display flashing. The system works in the range of around 15 km / h to 250 km / h and can be activated via the MMI car menu. | R 11,300 |
| KA6 | **360-degree cameras**<br>The four wide-angled cameras cover the entire area immediately around the vehicle and enable a variety of different views for even more comfortable maneuvering. The driver can choose different views in the MMI display so that the vehicle can be positioned more easily in the parking space. | R 7,500 |

## Welcome to Audi

**Audi Freeway Plan | Motoring Peace of Mind**

There can be no better motoring peace of mind than knowing that your car will be serviced, maintained and repaired, should this prove necessary, at no cost to you. Thanks to Audi Freeway Plan, that peace of mind could be yours.

The Audi Freeway Plan absorbs all maintenance and service costs, with the exception of between-service top-up fluids, fuel, cracked or broken glass, and tyres.

A five-year or 100 000 km Audi Freeway Plan is included as standard on all new Audi vehicles.

Top-up options to extend maintenance up to 10 years, or 300 000 km are available at extremely competitive rates. Audi has specially designed the Audi Freeway Plan for easy operation on the part of the owner. Making an appointment with any one of our approved Audi Servicing Dealers can effect regular servicing and maintenance as well as repairs (with the exception of accident damage).

All work is handled by the relevant service department, which will liaise directly with the Audi Freeway Plan Maintenance Unit. No extra effort or payment is required from the Audi owner. The Audi Freeway Plan is registered with the vehicle and as such is transferable to the new owner should the car be sold before the Audi Freeway Plan has expired, giving added resale value. The Audi Freeway Plan is available in addition to the Audi's standard one-year/unlimited distance vehicle warranty. The Audi Freeway Plan is subject to certain exclusions, covers any repairs necessary after the expiry of the standard warranty.

**Audi Assist | Emergency and Personal Assistance**

Audi Assist is a programme whereby Audi of South Africa and its Dealer Network pledge to provide you with peace of mind motoring by providing the infrastructure to support a countrywide emergency service 24 hours a day, every day.

The programme is known as Audi Assist and operates within the borders of South Africa as well as Namibia and Botswana. The objective of the programme is to ensure on the spot roadside assistance offered by a fully equipped and trained Audi technician.

The primary focus is to get you mobile in your own vehicle. Where a roadside repair cannot be effected and the vehicle needs to be towed to the nearest Audi dealer, you and the occupants of the vehicle will be transported to a place of safety in the dealer's roadside assistance vehicle.

Contact details within South Africa:
086 043 4838

Contact details for neighbouring states:
+27 41 994 5616

24 hours a day, 7 days a week
Vehicle model and VIN number will be required.
